# Tin capsules

Ramondin produces over 500 million tin capsules a year, more than 50% of the tin capsules manufactured in the world. Tin is the finest, most elegant material for dressing bottles and the choice for sealing quality products.

## Properties

Ramondin tin capsules provide great added value:

- They are the top-range capsules to **enhance the image of your product.**
- **They consist of a single deep-drawn piece.**
- The material **allows for easy, seamless, wrinkle-free capsulation** on the bottling line.
- Tin capsules **offer extensive design possibilities.**
- **They are ecological, recyclable** and decorated with environmentally-friendly **water-based inks.**
- **They offer high levels of both in-house and customer safety,** as there is no risk of cuts.
- **They can offer anti-counterfeiting measures** using electronic pigments. The fight against fraud is a philosophy at Ramondin clients are billed direct, without intermediaries.
